Art Unit: 3724

DETAILED ACTION

1. The amendment filed January 31, 2001 and April 13, 2001 have been entered.

Information Disclosure Statement

2. Per applicant's request, another copy of the initialed information disclosure statement form PTO-1449 filed on January 27, 2000 (paper no. 4) is being included herewith. If applicant again does not receive a copy of page 2 of 2, applicant is requested to contact the Examiner by telephone.

Drawings

3. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on April 13, 2001 have been **approved**. A formal drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

Abstract

4. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not

Art Unit: 3724

exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

5. The abstract of the disclosure is objected to because it is too long. ✓ Appropriate correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1, 3, 7 and 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Cornell, pn 4,403,748.

Art Unit: 3724

Allowable Subject Matter

8. Claims 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
